## CPD - a Statutory Requirement or Not?

To gain status as a Professional Body, a Continuous Professional Development Framework needs to be submitted to SAQA. A Professional body might be statutory, in which case the implementation of CPD is legislated and compulsory.

In the many cases where a Professional Body might be non statutory, the challenge lies in getting members to adhere to the CPD requirements as per the guidelines.

A structured and attractive CPD Policy offering with incentives will encourage the member to not only embrace CPD but to value it as a crucial role in Professional Development.
